© 2024 All material in this document is strictly the copyright of Atlantic Region Motor Sports Inc. (ARMS), and may not be reproduced without prior written permission.

These specifications were established by ARMS which reserves unto itself the right at any time to alter these as required, promulgate special rules in an emergency and periodically to revise any appendices hereto. Such alterations or additions will be published in the form of revised manuals or bulletins and/or on the ARMS official website.

The Specifications are intended to assist in the conduct of Events and to further general safety. They are a guide and in no way guarantee against injury or death to participants, spectators or others. No express or implied warranties of safety or fitness for a particular purpose shall be intended or result from this publication or compliance with these specifications. By participation in these events all participants are deemed to have complied with these regulations.

PREAMBLE

The 2024 ARMS Navigational Rally Rules document is a complete restructuring and rewrite of the previous 2021 rules. The goal of the changes are to enable a wider variety of navigational rally styles and allow for rallies to be run more consistently with other regions in Canada and the United States.

The fundamental change principles are as follows:

- Any rally organized under the previous rules can be offered without changes. Additional information will need to be included in the Supplemental Regulations.
- Allow of Open and Closed Checkpoints. ARMS navigational rallies have typically relied on using Open Checkpoints. Closed checkpoints do not require the cars to stop.
- Allow for new timing granularity options. Previous ARMS rallies have used 1 minute timing granularity. These changes will allow the rally organizer to specify 1s, 1/10 min, 1/6 min, or 1 minute timing units.
- Allow for the inclusion of a timing allowance. Previous ARMS rallies have not included any provision for a timing allowance. Rally organizers will have the ability to include competitor timing allowance of 30 s to 19 min, 30 s with 1 min increments (e.g. 00:30 1:30, 2:30, ..., 10:30).
- Allow rally organizers to supplement the competitive classes with a non-competitive touring class.
- Allow rally organizers to use average speed of 95% of the posted limit on 100 series highways.

2.2 NAVEX CHAMPIONSHIP SCORING	6
Annex A to Navigational Rally Championship Regulations	17
Annex B to Navigational Rally Championship Regulations.....	18
Annex C ARMS CODE OF CONDUCT	19

2. NAVIGATIONAL RALLY CHAMPIONSHIP REGULATIONS

Atlantic Region Motor Sports (ARMS) in affiliation with the Canadian Association of RallySport (CARS) shall hold three (3) or four (4) Rally Championships consisting of:

- (1) The ARMS/CARS Atlantic Regional Experienced Navigational Rally Championship, hereafter referred to as the Experienced NAVEX series; and
- (2) The ARMS/CARS Atlantic Region Novice Navigational Rally Championship, hereafter referred to as the Novice NAVEX series; and/or

Rally organizers may supplement the Experienced and Novice class structure with non-scored event classes such as a Touring class. These classes do not qualify for the Navigational Rally Championship.

All events approved at the Annual Atlantic Regional Rally Workshop which have received a permit from the Director of Rallying, ARMS/CARS Atlantic Region (hereinafter referred to as the "Rally Director") will count toward ARMS/CARS Atlantic Regional Rally Championships. Championship points will be awarded to competitors residing in the Atlantic Region, who are members of a CARS-affiliated ARMS club and who hold an appropriate competition license.

3. NAVEX SERIES CHAMPIONSHIP REGULATIONS (NOVICE AND EXPERIENCED)

2.1 DISTINCTION BETWEEN NOVICE AND EXPERIENCED CHAMPIONSHIPS

- 2.1.1 Prior to 2008 only the Experienced NAVEX Championship was officially recognized by ARMS, although rally organizers were encouraged to provide separate simplified instructions suitable for new crews who had no prior experience with car rallying. For 2008 ARMS recognized a championship for novice competitors.
- 2.1.2 A Novice competitor is one who had competed in six (6) or fewer car rallies as a driver, co-driver or navigator at any competitive level and who has not previously won the ARMS Novice NAVEX series championship. Only Novice competitors as defined here may earn championship points towards the Novice NAVEX Championship.
- 2.1.3 Where only one set of instructions is available for a NAVEX rally event, said instructions will be considered as both Experienced-class and Novice-class instructions.
- 2.1.4 Where separate Novice-class and Experienced-class instructions are offered, individual crews may elect to use either set of instructions regardless of whether they are considered to be Novice or Experienced competitors. However, only crews using Experienced-class instructions may earn more than one championship point towards the Experienced NAVEX Championship.
- 2.1.5 "Mixed" crews are permitted. That is, a crew consisting of one experienced competitor and one novice competitor may enter a rally using their choice of Experienced-class or Novice-class instructions. If Experienced-class instructions are used, the experienced competitor will earn championship points towards the Experienced-class championship while the Novice-class competitor will earn the same number of championship points (as his/her Experienced-class teammate) towards both championships. If Novice-class instructions are used, the Novice competitor will earn championship points towards the Novice NAVEX Championship only, while the Experienced competitor will earn two (2) championship points towards the Experienced NAVEX Championship.
- 2.1.6 If a competitor should earn sufficient championship points to win both the Novice and Experienced classes, he/she will be awarded the Experienced Championship only. In such a circumstance, the second-place novice competitor will be awarded the Novice Championship.

2.1.7 Rally organizers shall base their results only upon the class of instructions used by the crews. If only one class of instructions was used, only overall positions need to be established. The ARMS Navigational Rally Director is responsible for determining the status (Experienced or Novice) of competitors for the purpose of accumulating Championship points in the two championships.

2.2 NAVEX CHAMPIONSHIP SCORING

2.2.1 In the event that less than four (4) events are held, ALL events will be scored. A minimum of three (3) events must be held in order for a championship to be awarded.

2.2.2 INDIVIDUALS

- (a) There will be separate championships for drivers and navigators. Competitors who compete in both categories will have their points combined and shown in the category in which they earned the most points. The maximum number of events which may be counted by an individual competitor will be the total number of championship events held, less one.
- (b) Except for special circumstances approved at the AGM Rally Workshop points will be awarded as follows:

First	20 pts		Fifth	8 pts		Ninth	2 pts
Second	15 pts		Sixth	6 pts		All other finishers	1 pt
Third	12 pts		Seventh	4 pts			
Fourth	10 pts		Eighth	3 pts			

- (c) Experienced competitors who crewed with a Novice-class competitor will be awarded two (2) points towards the Experienced-class championship regardless of actual finishing position. Where a crew consisting of two experienced competitors used Novice-class instructions each competitor will receive one (1) point towards the Experienced-class NAVEX Championship.
- (d) To be classified as a finisher, the crew shall pass the final control marker of the rally in the vehicle entered under its normal power and within their maximum lateness. They shall also satisfy any additional conditions of finishing published in the Supplementary Regulations.
- (e) Competitors who perform significant organizational service at a Championship event will be awarded organizational credit points equivalent to their best series finish position, without reduction of points if fewer than four crews entered the event organized or the event in which the best finishing position was obtained. Normally, up to two (2) persons will be allowed organizational credit per event. A third qualifying credit may be granted to an individual who had previously participated in the organization of fewer than three regional rallies. Persons qualifying for credit must be declared to the Rally Director by the event coordinator prior to the start of the event, and competitors may only claim organizational credit for one event.

2.2.3 TEAMS

- (a) A club may enter any number of three (3) car teams in an event. At least four (4) crew members must be current members of a CARS-affiliated ARMS club. Teams shall be designated at registration.
- (b) Qualifying teams will compete for the BLM Team Challenge Shield.
- (c) Team standings will be determined by the sum of the individual points earned by all crew members of the team. The club of the winning teams at each rally shall be credited with a win toward the Shield Championship.

2.2.4 ELIGIBILITY OF CREW, VEHICLES & EQUIPMENT

2.2.4.1 LICENSING REQUIREMENTS

- (a) All competitors must be in possession of a valid ARMS competition license in order to compete.
- (b) Unless waived as a condition for the current competition year by those in attendance at the ARMS Annual Rally Workshop, competitors wishing to count points in the NAVEX Championship must hold a minimum of a CARS "Basic" license.
- (c) Crew members not in possession of a CARS "Basic" license, but who are currently members of a CARS-affiliated ARMS club, may enter the event by purchasing a one-day license.
- (d) Crew members who do not hold a current membership in a CARS-affiliated ARMS club may enter the event by purchasing a one-day club membership and license per the restrictions and requirements of the issuing club's bylaws.
- (e) Competitors shall be allowed to count points retroactively for one event run prior to obtaining a national license.

2.2.4.2 CREW

- (a) A rally crew shall consist of two persons. Any additional persons shall be considered as passengers and are allowed only with the permission of the event organizer.
- (b) No change of crew and/or vehicle will be permitted during a rally. Either person may assume the role of driver or navigator, however, each will be scored in the series championship on the category listed on the entry form.

2.2.4.3 DOCUMENTATION

The following documents, valid on the date of the event, must be shown to Rally Officials at registration:

- (a) Driver's license for any crew member listed as driver.
- (b) Vehicle registration.
- (c) Third-party liability insurance.
- (d) Written permission for use of the vehicle in the rally if not owned by one of the crew named in the entry form.
- (e) Written permission from a parent or guardian for participation in the rally for persons under the legal age of majority for the province(s) in which the event takes place.

2.2.4.4 VEHICLE

- (a) All competing vehicles must be road worthy and shall be scrutineered to check the function and adequacy of:
 - all brakes.
 - horn.
 - wind-shield wipers.
 - all legally required exterior lights.
 - exhaust system.
 - tires.
- (b) It must be possible to turn off all lights on the front of the vehicle which could possibly blind the driver of an oncoming car from a single switch which must leave the low beams illuminated.
- (c) If a vehicle has a back-up light operated by a manual switch, this same switch must operate a dash-mounted warning light.
- (d) Two-way radio communication devices (such as cellular telephones) may be used for emergency purposes only, or to inform the rally officials of a decision to abandon (or re-join) the rally. A cellular telephone may be used for scoring purposes if required by the rally organizer and defined in the supplementary regulations.
- (e) Articles which could be dangerous if let loose must be securely restrained. Additional fuel containers must be permanently installed and vented to the outside of the vehicle.

- (f)** The following equipment is strongly recommended for all vehicles:
- two (2) self-supporting warning triangles.
 - a first-aid kit including antiseptic, gauze pads and rolls, adhesive tape, arm sling, safety pins, scissors.
 - a fire extinguisher with a minimum rating of 4BC, securely mounted in a quick-release steel bracket.

2.2.5 EVENT FORMAT

2.2.5.1 CHOICE OF ROUTE

- (a)** Competitors with "unprepared" cars (i.e. cars without sump guards) should, by exercising due care, be able to finish all NAVEX events. To accomplish this, cautions (bad bumps, rough culverts, etc.) should be included in the instructions. Cautions must have a distance and description.
- (b)** The route must be carefully chosen to ensure that competitors are not kept circulating in one area for long periods of time. Built-up areas and busy main roads should be avoided as much as possible. Rally activity which creates a nuisance or inconvenience to anyone not connected with the rally must be avoided.
- (c)** Twisting country roads should be avoided for rally traffic that is traveling in both directions at the same time. If used, the instructions must indicate where twoway rally traffic begins and ends.
- (d)** If private roads are used, permission for their use must be obtained in writing and a copy must be displayed on the Official Notice Board at the start of the rally.
- (e)** A regional navigational rally must be a minimum of 150 km. For rallies of a longer length, it is suggested to break the event into "legs" and give competitors a break of sufficient time to rest & refuel between each leg of the event.

2.2.5.2 INSTRUCTIONS

- (a)** NAVEX events shall be designed to test the driver's and navigator's skill, with instructions so designed that non-equipped cars (i.e. cars which have no special distance measuring or timing devices) shall be competitive.
- (b)** All instructions which define the route and timing must be presented in writing and must include all required maps. The instructions must provide a full explanation for each type of instruction used, in such a way that there is no reasonable doubt as to their meaning. Competitors must not be required to possess local knowledge, additional maps, or specialized knowledge of rally "conventions" in order to follow the route.

- (c) Written explanations must be provided for all special terms, diagrams and abbreviations used in the instructions. The terms stop, yield and tee shall not be abbreviated. RRX is the only abbreviation that may be used for a rail- road crossing.
- (d) Where no specific instruction is given, a competitor shall continue on the road on which he/she is travelling, as long as that road is clearly and unambiguously identifiable. A list of standard criteria for establishing "main road navigation" is attached in Annex A.
- (e) There shall be no "automatic Tee" or the reverse thereof, instructions in a reverse.
- (f) Route questions are not permitted.
- (g) Novice-class instructions shall be designed to be understood by a new competitor with no more than 15 minutes of verbal explanation prior to the event and shall not depend upon any prior knowledge of navigational rallying. All terms and abbreviations must be defined in the instructions or in separate notes provided to competitors prior to the start of the event.

2.2.5.3 ODOMETER CALIBRATION

A specific and readily identifiable object of permanent nature must be described in the instructions as an odometer check. This check must be a minimum distance of fifteen (15) kilometers. The route prior to the odometer check must be defined in the instructions so as not to rely on accurate distances. No control may be located within the odometer calibration distance of within five (5) kilometers thereafter. Distances shall be statute to within plus or minus 2%.

2.2.5.4 AVERAGE SPEED

The maximum average speed allowed at any point in a rally other than a 100 series highway is 10% less than the legal maximum speed at that point and must be based on statute distance, plus/minus 2%.

The maximum average speed allowed at any point in a rally on a 100 series highway is 5% less than the legal maximum speed at that point and must be based on statute distance, plus/minus 2%.

2.2.6 ADMINISTRATION OF A RALLY

2.2.6.1 STARTING ORDER

The starting order should be determined by a draw of all pre-registered entries. All other entries start in the order they are received. Novice entries should be started after the experienced class.

2.2.6.2 ROUTE

- (a)** It is the responsibility of the organizer to ensure that the route instructions have been thoroughly checked by a competent "green crew". This check should be made from a final copy of the instructions and must verify the accuracy of instructions, locations of all controls, timing calculations and conformance to posted speeds.
- (b)** A course-checking vehicle should cover the route not less than six (6) hours or more than 24 hours before the rally start. If a portion of the route is impassible, alternate instructions must be prepared and posted on the official notice board.
- (c)** If the route becomes blocked or impassable to competitors after the course checking run, all controls between the impasse and the next recovery point shall be deleted and the next timed controls shall be made Route-In/Time-Out.

2.2.6.3 CONTROLS

- (a)** A course-opening vehicle should be used to ensure that controls are correctly located and that control timepieces are synchronized.
- (b)** A course-closing vehicle should be used to ensure that controls are correctly located, that they remain open as long as required, to check the control timepieces, and to collect the control log-sheets and bring them to the finish.

2.2.6.4 REGISTRATION

A registration must be held at the start of the rally to check the eligibility of all competitors, to verify required documents, and to ensure that crew members have signed the waiver.

Registration via electronic submission may be used

2.2.6.5 SCRUTINEERING

A technical inspection should be held at that start of the rally during which a scrutineer checks all competing vehicles. The scrutineer should also verify that the license number on the vehicle is that stated on the entry form.

2.2.6.6 INTRODUCTION OF OFFICIALS

An introduction of officials and crew-briefing should be held at least 30 minutes before the start of the rally. The organizer(s), the Steward, and any other persons authorized to sign official documents should be introduced. Any changes to the route book may be reviewed.

2.2.6.7 OFFICIAL NOTICES

- (a) An Official Notice Board must be displayed at the start and at the finish, and shall contain only the permit for the rally, official notices, letters of notification to police, letters-of-permission to use private roads, and a timepiece set to "official rally time".
- (b) All official notices must be signed by the organizer, the Steward , or a person designated at the Introduction of Officials.
- (c) Any known route corrections must be posted on the Official Notice Board before the start of the rally.
- (d) If a change to the route instructions becomes necessary after the rally has started, an official notice containing the changes to the route and/or timing must be posted at a control or on a clearly visible and securely placed control sign. If such a notice is posted at a control, the marshal should be instructed to point it out to each competitor who checks in and should obtain verifying signatures by car number.
- (e) Any changes to the Supplementary Regulations must be posted on the Official Notice Board before the start, and must be signed by the organizer and/or Steward.
- (f) Responses by the organizer to written questions from competitors must be posted on the Official Notice Board as soon as possible.
- (g) A timing sheet, stating the official distance and correct elapsed time to all timed controls, should be posted on the Official Notice Board at the finish of the rally, before the arrival of the first car.
- (h) Copies of grievances and replies from the organizer shall be posted.
- (i) An official with authority to sign official notices must be present at the end of the rally before the due time of arrival of the first car.

2.2.6.8 TIMING AND CONTROL RECORDS

Correct time for checking watches should be obtained from a reliable radio time signal or global positioning satellite (GPS) signal. The following is standard timing procedure to be used at all Regional NAVEX events:

- (a) The "no-penalty" period shall be from 00 to 59 seconds of the correct minute.
- (b) The control shall be located at the 00 second mark of the minute.
- (c) At all average speed controls, the marshal shall record on his/her record sheet the hour, minute and second at which the competitor's car passes the control marker. If the competitor was observed stopped before passing the control marker, except in the interest of safety, the marshal shall record the time at which he/she was first observed stopped. The time shall be recorded on the competitor's route card or sticker, and on the control log-sheet under "Time-In".

- (d) At all elapsed time controls, the marshal shall record the time of arrival, or a later time requested by the competitor, as the "Time-In" on the competitor's route card or sticker, and on the control log sheet.
- (e) A competitor's Time-Out is defined as his/her Time-In plus one minute, unless a later Time-Out is recorded on his/her route card or sticker by the marshal.
- (f) Unless otherwise stated on the official notice board, the Maximum Lateness shall be 30 minutes for the first two sections of the rally, and 45 minutes for all subsequent sections, with the exception of the final control which shall be 60 minutes. Maximum Earliness at all controls shall be 15 minutes.
- (g) A competitor's total lateness at a control shall be defined as the sum of his/her timed units late minus his/hers early timed units at all timed controls since the beginning of the rally.
- (h) Supplementary regulations may provide provision for a Timing Allowance (TA). A competitor may request a late allowance at any checkpoint before knowing the penalty time. TA's are restricted to 0.5 min to 19.5 min in 1 minute increments.
- (i) Supplementary regulations shall specify the timing unit - the second or any part thereof, minute. A full description of how the timing will be recorded must be included within the regulations, giving such details of any equipment, computer/tablet/cell phone applications required, etc. as may pertain to the timing system being used. A description of any changes to the Elapsed Time Controls procedure outlined in these regulations must also be included.

2.2.6.9 PERMITS AND PERFORMANCE BONDS

A permit is required for all Regional NAVEX Championship events. Permit application, accompanied by two copies of the Supplemental Regulations and the required performance bond and permit fee (if being applied; see Section 9 for the fee schedule), must be received by the Rally Director not less than sixty (60) days prior to the event.

The penalty for a late application permit shall be an amount equal to the permit fee for each seven (7) days delay. No permit shall be issued if the permit application is received less than fifteen (15) days prior to the event.

The Rally Director may require that a performance bond be posted at the time of permit application (see Section 9 for maximum bond amounts). All, part, or none of the performance bond will be returned to the organizer at the discretion of the Rally Director who must be satisfied that the event was run in accordance with these regulations and that all permit fees, penalties, and levies owed to ARMS/CARS Atlantic Region have been paid.

2.2.6.10 SUPPLEMENTARY REGULATIONS

Supplementary Regulations are required for all Regional NAVEX events. These shall be submitted for approval to the Rally Director at least 60 days prior to the event, and must be available to competitors at least 30 days prior to the event. Any alteration of these regulations requires the approval of the Rally Director and must be posted on the official notice board. While organizers are encouraged to mail Supplementary Regulations to prospective competitors, it remains the responsibility of the competitor to obtain them.

As a minimum, the Supplementary Regulations must include:

- (a)** A statement of jurisdiction, including the wording "The rally will be held under the General Competition Regulations of the Canadian Association of RallySport and Rally Regulations of Atlantic Region Motor Sports Inc. These publications are available online at <https://carsrally.ca/cars-home/> and <http://www.armsinc.ca/>. These publications also are available from the Director of Rallying, ARMS/CARS Atlantic Region, [address and telephone] and will be available for scrutiny at the start".
- (b)** The name of the rally and its status, indicating any championships of which it is a part.
- (c)** The names and addresses of the organizing club, the organizer, the registrar (to whom entries are sent), the steward, and any other rally officials.
- (d)** The locations of the start and finish, with directions from the nearest major highway, and the locations of meal and rest stops.
- (e)** A schedule of dates and times giving at least:
 - opening and closing of registration and technical inspection.
 - introduction of officials.
 - departure time of first vehicle.
 - approximate due time of arrival of the first vehicle at rest stops and at the finish.
- (f)** A brief description of the rally. This should include a definition of the area encompassing the entire route by intervals of longitude and latitude, names of counties, or identification of topographical maps.
- (g)** The closing date for entries.
- (h)** The maximum number of entries to be accepted and how entries will be chosen if this number is exceeded.
- (i)** The amount of entry fees (including ARMS/CARS levies), and a statement indicating if these fees include the cost of any food, fuel, accommodations, etc.
- (j)** A list of all awards, detailing how these will be distributed.

- (k)** A statement of conditions for eligibility of vehicle, crew, and equipment (whether or not additional odometers are permitted, etc.).
- (l)** Any other regulations which the organizers, promoters, and/or the region wish to apply to the rally.
- (m)** Instructions for Open or Closed Control Points (Appendix C or D). If hybrid control points are to be used, comprehensive details on the hybrid nature must be provided.
- (n)** Method of Scoring: manual versus electronic scoring.

2.2.6.11 RESULTS

The posting and handling of results shall follow the procedure outlines in the CARS National Rally Regulations.

Results must be electronically mailed, or notified of online posting to all competitors within fifteen (15) days of the event and contain the following information:

- a)** name of rally.
- b)** name of organizing club.
- c)** date of rally.
- d)** status of rally.
- e)** permit number.
- f)** exact official distance of the rally.
- g)** finishing positions listed in order.
- h)** vehicle number.
- i)** name of car entrant and/or sponsor.
- j)** names, home towns and club affiliation of all competing crews.
- k)** official distance of all controls and elapsed time between controls where time was taken.
- l)** points lost at each control.
- m)** total points lost by crew.
- n)** complete list of prize winners.
- o)** date and place of awards presentation.
- p)** acknowledgement of sponsors, stewards, workers, etc.
- q)** a statement as to the status of the results, i.e. final or provisional.

In addition, a list showing the full names, full mailing addresses, and e-mail addresses of all competitors must be sent to the ARMS Rally Director for the purposes of maintaining mailing lists for dissemination of rally information only. These mailing lists must not be published or communicated to sponsors, advertisers or other third parties.

The Steward shall declare amendments as required to the results to reflect his/her decisions regarding the reclassification of competitors as a result of grievances. Once declared final, the results may not be modified, except for reclassification of competitors by the Steward, as noted previously.

2.2.6.12 STEWARDS

Stewards receive assignments from and report to the Rally Director. Reasonable travel expenses, up to the limits established for Region executive travel, are the responsibility of the listing club. Organizers of Regional NAVEX events may nominate potential event stewards; however final authority for assignment rests with the Rally Director. Although Stewards may be members of organizing clubs, the Rally Director may require that a Steward be assigned from other than the organizing club. All other matters pertaining to stewarding shall be as per the CARS National Rally Rules and General Competition Regulations.

2.2.6.13 GRIEVANCE PROCEDURE AND PENALTIES

All matters pertaining to grievance procedures and penalties shall be as per the CARS National Rally Rules and General Competition Regulations.

2.2.6.14 FEES: PERMIT/BOND/LEVIES

The following is the current fees applicable in principle to rally but are waived for ~~2007~~ 2019.

Event Permit:	\$15.00
Performance Bond:	\$35.00
Exp. Competitor Levy:	\$ 6.00 / each
Nov. Competitor Levy:	\$ 3.00 / each

Annex A to Navigational Rally Championship Regulations

Main Road Navigation

If no instruction is given, stay on the road you are on as defined by the following prioritized list:

1. Do not drive down a road marked "NO EXIT".
2. Stay on the road protected by STOP signs.
3. Stay on the road protected by YIELD signs.
4. Stay on the same numbered road i.e. "Hwy 101".
5. Stay on the same named road i.e. "BOG RD."
6. Follow directional arrows (usually black on yellow).
7. Stay on the same road surface.
8. Follow the most travelled surface.
9. As straight as possible.

Annex B to Navigational Rally Championship Regulations

Rally Definitions

Checkpoint	
Open Checkpoint	An OPEN CHECKPOINT is visible and may require rally cars to stop after crossing the timing line, with the team taking some action specified in the General Instructions.
Closed Checkpoint	A CLOSED CHECKPOINT may be hidden from view. It is one at which you are timed as you drive past without stopping.
Control	
Free Zone	Section of rally that is not timed. It is followed by a restart.
Timing Allowance (TA)	A Timing Allowance is used as a late-time offset to avoid late penalties.

Annex C ARMS CODE OF CONDUCT

ARMS clubs, members and participants in ARMS sanctioned events shall conduct themselves according to the higher standards of behaviour and sportsmanship and in a manner that shall not be prejudicial to the interests and the reputation of ARMS or its Clubs or of motorsport generally. Failure to do so shall be considered a breach of the ARMS GCRS and may result in penalties being applied.

The following statements further define the beliefs, expectations, ideals and principles of individual conduct that ARMS believes should be exemplified:

1. Participants in ARMS sanctioned activities shall be bound by this Code of Conduct.
2. Participants in ARMS sanctioned activities shall accept that motorsports can be dangerous and entails inherent risks.
3. Participants in ARMS sanctioned activities shall be treated with consideration and respect, and shall treat fellow participants with the same consideration and respect.
4. Participants in ARMS sanctioned activities shall endeavour to portray a positive image of motorsports through their exemplary driving habits.
5. Participants in ARMS sanctioned activities shall not knowingly place themselves or others in a position of undue risk. Consideration of safety shall be placed before competitive goals.
6. ARMS members shall strive to set exemplary standards of behaviour as they are all ambassadors for motorsports.
7. ARMS members shall pledge to demonstrated with their actions care and concern for the environment.
