ARMS Bulletin 2026-01

Subject: Passengers in Lapping Events

Issue Date: April 22, 2026

Intent:

While minors with the proper licence requirements are able to participate in lapping events, ARMS licencing procedure requires a qualified instructor to be in the vehicle to instruct and evaluate the student fitness to obtain a lapping licence. This involves the minor to be both the passenger and the driver with the instructor.

SDG ASN Lapping Regulations, Section 13.10 states that the minor participants must "be in a vehicle being driven by their parent or legal guardian".

This prevents a minor from completing the licencing procedure at ARMS.

Amendment:

In addition to Section 13.10 of the SDG ASN Lapping Regulations:

Minors may also be passengers with approved ARMS instructors.
